www.saferspace.org.uk

**"...If we don't break the chain of infection by 2050, 10m people per year will die..."**

***You can do something to change this NOW***

By implementing the Safer Space® independent accreditation standard YOU can help break the chain of infection by creating healthier environments

# IDENTIFICATION OF THE PROBLEM … IT IS GLOBAL

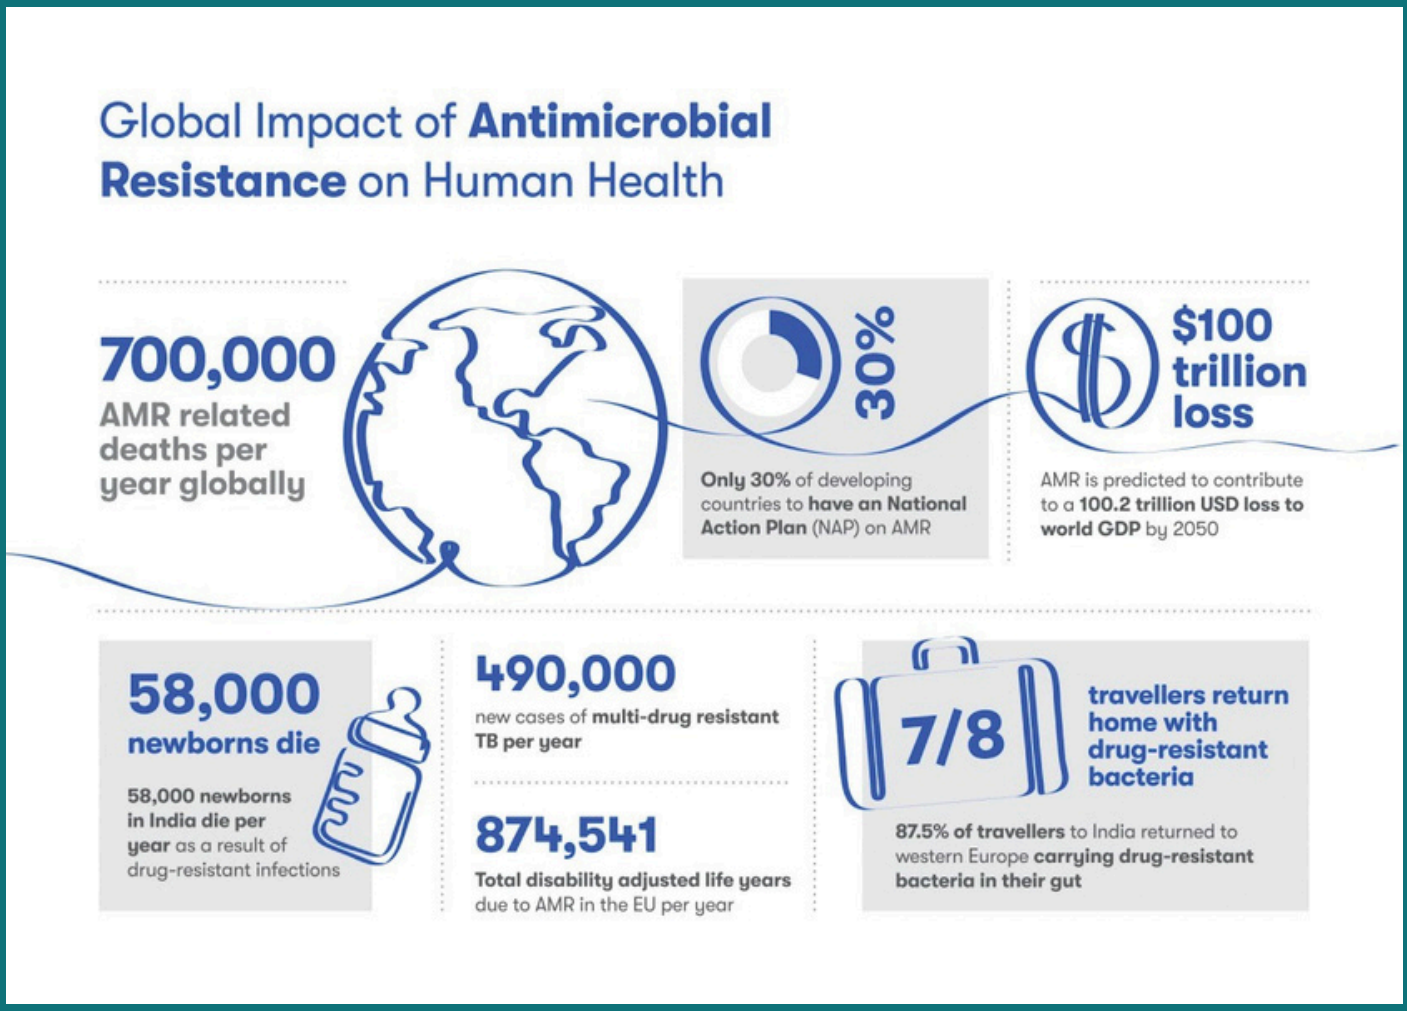

## Antimicrobial Resistance

'… Could kill humanity before climate change does …'

## Antibiotic Resistance

'… Unchecked could kill 10 million a year by 2050 …and a reduction of 2% to 3.5% in GDP'

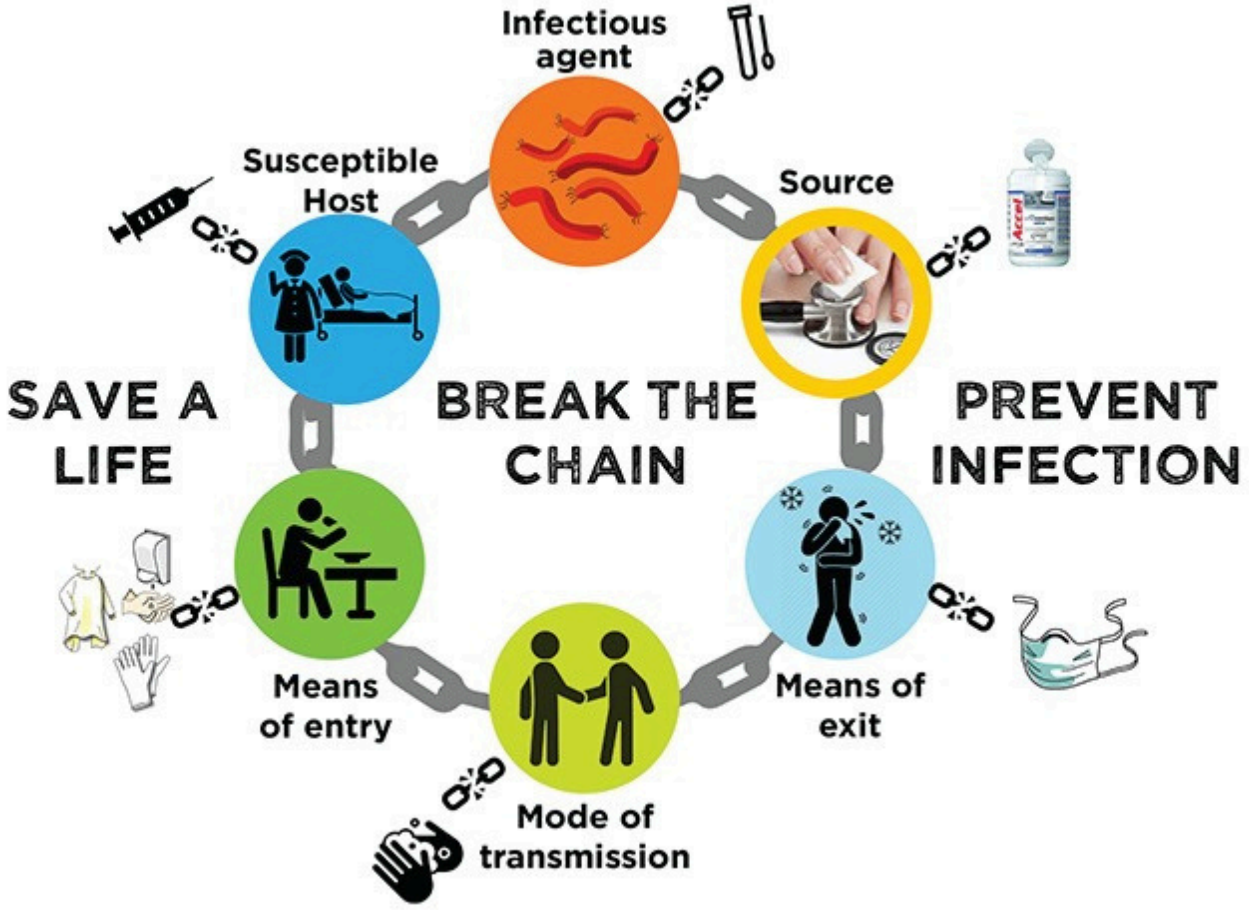

*(https://www.youtube.com/watch?v=2H_Ox1vVnTc).*

# SOLUTION ...
# MAKE IT VISIBLE AND ACCOUNTABLE

If you can't see it and don't measure it, you won't improve it.

- Compliance with our simple cleaning & hygiene standard creates healthier environments for all employees, customers/residents and patients/visitors.
- Displaying our distinctive quality mark confirms commitment to global health & well-being.
- Confidence in your environment leads to lower absenteeism/sickness, enhanced productivity, higher footfall, and strengthens economic stability.

# THE SAFER SPACE VISION
# TURNING THE INVISIBLE VISIBLE

We cannot see pathogens at a glace, unlike dirt.

## THE PROBLEM?

There are no appropriate independent standards

**Remember "clean" does not necessarily mean safe.**
Every surface you touch is covered with invisible germs and viruses!

Antibiotics are failing

Antimicrobial resistance is growing

141.4m days being lost at work, £73b

People demand 'cleaner & safer environments'

Many contaminated surfaces are too difficult to get to/or unseen

## THE SOLUTION?
The Safer Space® independent cleaning & hygiene standard

Create an environment where your greatest asset is both protected and feels valued (CSR).

**Adopting a Safer Space Accreditation**

**will create healthier and safer environments**

**and demonstrate care to customers/visitors/ patients/employees**

## WHY?
## Breaks infection cycle

- Prevention rather than cure
- Utilises innovation
- Protects environment
- Protects employees
- Reduces Costs
- Reduced Patient visits / stays
- Protects visitors
- Retains employees & customers
- Gives a marketing advantage
- Promotes public liberty
- Reduced Insurance Premiums

# THE SAFER SPACE® PROCESS

## THE PROCESS

Agree to go ahead

Define space

Agree cleaning/ sanitising regime

Invest in delivery devices/chemical

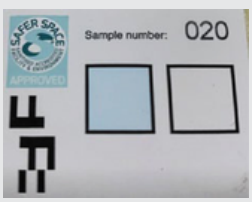

Train (Certify) operatives

Pre-sanitisation Test

Sanitise regularly

Validate with 'Prove It' indicator

Accredit The Space

## DEMONSTRATE CONFIDENCE BY MAKING THE INVISIBLE VISIBLE...

| Display Safer Space sticker | Promote and create confidence everywhere | Employees Customers Visitors Everyone else |
|---|---|---|

## EXAMPLES

- HR Manual
- Brand enhancement messaging
- Reception Certificate
- Social media
- Internal communications
- Table/room cards

## WHY? Breaks infection cycle

- Demonstrates innovation
- Protects environment
- Protects employees
- Protects visitors
- Retains employees/clients
- Gives a marketing advantage
- Encourages 'Return to work'

# SAFER SPACE® INDEPENDENT ACCREDITATION STANDARD

## Employ
